Terms of Approval

Design Organisation Approval Certificate

EASA.21J.489

1 Scope of approval

This Design Organisation Approval has been granted for:

- designing minor changes and minor repairs to aircraft in accordance with the applicable type-certification basis and environmental protection requirements in the following area:
 - structures
 - installation of avionics equipment
 - electrical systems
 - cabin interiors or other interiors equipment
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2 Categories of products

Large aeroplanes.
Large and small rotorcraft

3 List of products

[Not applicable]

4 Privileges

- a) The holder of this design organisation approval shall be entitled to perform design activities under Part21 and within its scope of approval.
- b) [Reserved]
- c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:
 1. to classify changes to type design and repairs as "major" or "minor";
 2. to approve minor changes to type design and minor repairs;
 3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA ref. EASA.21J.489";
 4. to approve minor revisions to the aircraft flight manual and supplements, and issue such revisions containing the following statement: "Revision No [YY] to AFM (or supplement) ref. [ZZ], is approved under the authority of DOA ref. EASA.21J.489.";

5 Limitations

[See in 1, above]

1. Structures are limited to rotorcraft secondary structures
2. Changes related to electrical systems are limited to secondary electrical distribution systems
3. Changes related to installation of non-ETSO equipment with functions governed via SW/AEH are limited to DAL E
4. Changes which impact product's environmental characteristics are excluded.
